

# KRISHNAMURTI PANDARAM

## SENIOR SOFTWARE ENGINEER

Ahmedabad • krishna916@outlook.com • 9574881735 • LinkedIn: linkedin.com/in/krishnamurti-pandaram

### SUMMARY

---

Senior Software Engineer with 7+ years of experience building scalable Java and React applications across fintech and SaaS domains. Experienced in backend engineering, microservices, performance optimization, application modernization, and mentoring engineers. Proven track record of delivering high-impact features and reducing system latency for enterprise-scale applications serving thousands of users.

### EXPERIENCE

---

#### Senior Software Scientist - May 2021 – Present

Brevitaz Systems Pvt. Ltd.

- Owned technical initiatives within the Administration team of a large sales enablement platform, progressing from a Full-Stack Engineer to a Senior Software Scientist.
- Optimized a critical group calculation workflow using a graph-based algorithm, reducing execution time from 6 hours to 3–5 minutes.
- Redesigned user and group filtering using Redis and Elasticsearch, reducing search and typeahead latency from 10+ seconds to under 1 second for administrators managing 15,000+ users.
- Contributed to modernizing legacy JSP/jQuery modules to React and evolving Spring Boot APIs.
- Mentored junior engineers through code reviews and technical guidance, enabling independent feature ownership.
- Integrated LLM-powered capabilities into production to deliver AI-driven product features and workflow automation.

#### Java Developer - Jan 2019 – May 2021

Shrine Software Services Pvt. Ltd

- Developed Spring Boot microservices supporting OAuth-based banking integrations for enterprise fintech applications.
- Enhanced a multi-tenant finance and analytics module for a hotel management platform, delivering full-stack features using Angular, Spring Boot, and MongoDB.
- Delivered production-ready features across multiple client applications, contributing to backend services, REST APIs, testing, and ongoing maintenance.

### SKILLS

---

Languages: Java, SQL, JavaScript, TypeScript

Frameworks: Spring Boot, Spring Data JPA, Hibernate, React, Angular

Databases & Search : MySQL, Elasticsearch, Redis, MongoDB

### CERTIFICATIONS

---

AWS Certified Solutions Architect – Associate (SAA-03 2026)

### EDUCATION

---

#### Bachelor of Engineering (Computer Engineering)

Universal College of Engineering & Technology | 2016
